

More than value

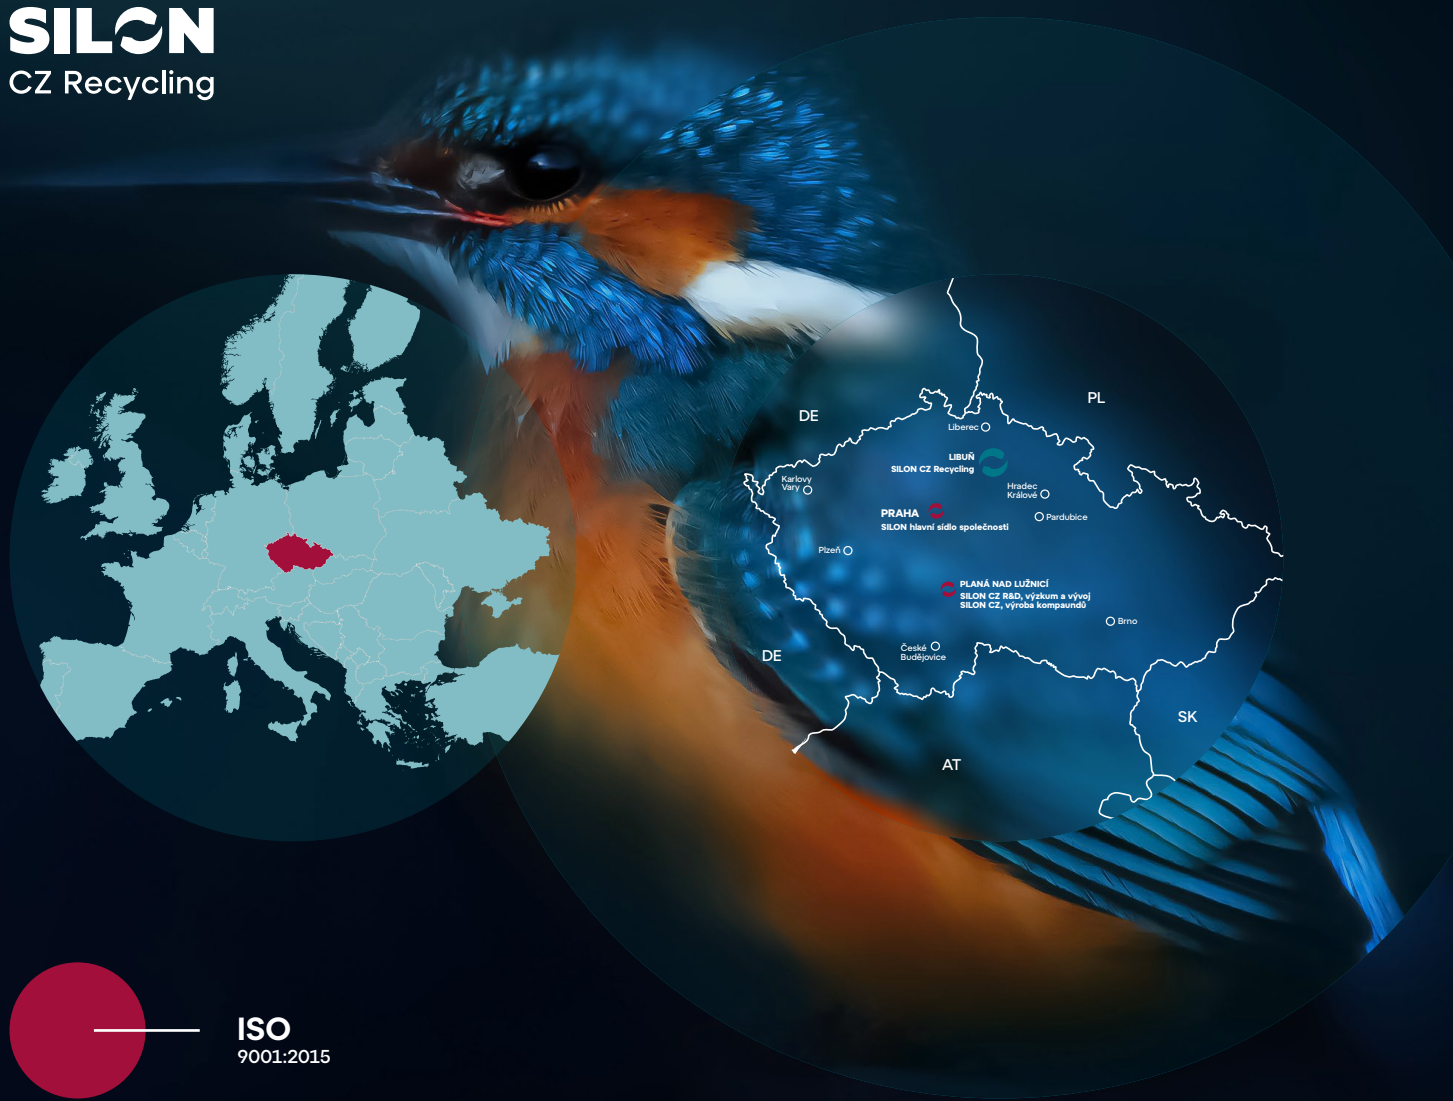

WELCOME TO SILON CZ RECYCLING

Sustainable plastic materials
for your products

WELCOME TO SILON CZ RECYCLING

SILON CZ Recycling, a new member of the SILON Group, specializes in innovative solutions in the field of plastic recycling. Our modern production plant, strategically located in Libuň, 100 km northeast of Prague, has the capacity to process up to 20,000 tons of plastics per year.

In our recycling plant, we use modern technologies that enable us to achieve excellent results. Thanks to the many years of expertise of the SILON Group specialists in plastics production and processing, and the support of our dedicated research and development center, we can effectively assist you in integrating recycled plastics into your products.

PRODUCTION OF REGRANULATE AND REGRIN

Under the TABOREC® brand, we produce premium regranulate and regrind tailored to your specific requirements. Thanks to advanced regranulation and grinding technologies, we offer solutions that meet the highest standards of quality and performance.

CUSTOM PLASTIC RECYCLING

Do you generate plastic waste in your production?

Take advantage of the opportunity to turn it into premium regranulate. We offer a cost-effective and environmentally friendly solution that enables the reuse of materials and contributes to a more sustainable future.
